Undergraduate Advanced Diploma in British Archaeology

About the course

This is a one-year part-time course at third-year undergraduate level which aims to provide you with an advanced grounding in British Archaeology and increase your understanding of the skills and techniques needed to recover, process and evaluate archaeological evidence.

There are three possible modules, with one module being offered each year.

The modules are

- Module 1: Early Prehistoric Britain
- Module 2: Later Prehistoric and Roman Britain
- Module 3: Anglo-Saxon, Viking and Medieval Britain

The module on offer for 202~21 is *Module 2: Later Prehistoric Britain and Roman Britain*

In each year there are evening teaching sessions during term time, plus tutorials, weekend field visits and the choice of either two practical weekends or a one-week practical fieldwork programme.

Teaching sessions include the use of visual material and handouts both for information for assignments, and as the basis for group discussion and directed interactive student learning.

Module 2: Later Prehistoric Britain and Roman Britain

This course explores the late Bronze Age, Iron Age and Roman period in Britain - covering the first millennium BC through to the early fifth century AD. This was a time of great technological, economic and social change, which we will study by looking at landscapes, settlements and material culture. To what extent did people continue to inhabit hillforts and roundhouses? Who lived in cities and towns, villas and farmsteads? How can we trace the impact of the continent on Britain's cultural and political relationships? This course will investigate these and other questions.

Assessment

Students are required to complete:

- 3 assignments of up to 2,500 words;
- A practical logbook of up to 4,000 words, to include a choice of learning tasks based on the practical training, visits to archaeological sites and/or museums and comparative site/artefact accounts, and a reflective discussion.
- A 10,000 word dissertation on a topic agreed with the Course Director.

Students who achieve an overall pass rate of 70%+ and pass each element of assessed work at the first attempt will be considered by the examiners for the award of a distinction.

Attendance

Candidates are expected to attend a minimum of 80% of each module. For calculation of attendance the following formula is applied:

- Two practical weekends = four classroom sessions
- Six days archaeological training = four classroom sessions
- Day visit/field trip= one classroom session
-

In addition, students are expected to attend four tutorials.
