

Course Information Sheet for entry in 2024-25: MSc by Research in Oncology

Course facts

Mode of study	Full Time Only
Expected length	1 to 3 years

About the course

This programme aims to train the next generation of leaders in translational oncology research by applying state-of-the-art techniques to address fundamental biology of cancer and how to optimise treatments for patients.

The Department of Oncology employs multidisciplinary approaches from physics, biology, chemistry and mathematical modelling to investigate DNA biology and epigenetics, cell and environmental biology of tumour tissue and both systemic and local immunological responses in cancer. The programme focuses on expanding scientific knowledge with a particular focus on therapies involving drug discovery or action and combination therapies with radiotherapy.

The MSc by Research in Oncology course accepts students for one to three years of study, however, the majority of students in this department complete their project in a year. Applications are accepted from both basic scientists and clinicians.

In the first instance interested applicants are advised to review the department's website to identify potential supervisors based on their research area of interest. Selecting the correct research projects is a hugely important first step so it is recommended that you contact a potential supervisor directly to discuss possibilities. Each researcher has their own profile page with their contact details listed.

Pattern of teaching and learning

This course does not include a timetable of lectures but there is a wide range of courses and workshops you will be able to attend to acquire skills that will be necessary for the pursuance and presentation of your research, as well as your professional development as a research scientist. The Department of Oncology provides an induction to the department in the first weeks of study and encourages attendance at divisional and University induction events.

You will be encouraged to make the most of the doctoral training and research methods provision available across the Medical Sciences Division and to attend departmental and divisional seminars. As an MSc by Research student you will be given the opportunity to present your work at a variety of seminars and sessions in the department.

Supervision

You will be admitted directly to a particular research area led by a Principal Investigator who will be appointed your supervisor. You will be based in a research lab and undertake research on a subject agreed with your supervisor. All MSc by Research candidates are assigned two supervisors in total, one acting as the main day-to-day research supervisor and the second as an additional academic mentor.

The allocation of graduate supervision is the responsibility of the Department of Oncology and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff.

Students will normally have two strands of supervision and the support of the Director of Graduate Studies, as well as administrative support within the department. Students can expect to meet with their supervisors several times each month, depending upon the requirements of their research project.

Assessment

Assessment for this master's degree course is by submission of a thesis and a viva with two examiners.

You will begin your course as a probationary research student (PRS). Towards the end of your first year you will apply to transfer to "MSc by Research" status. To transfer your status, you must apply formally, submit a research report and statement of future research plans, and take an independent assessment by two assessors. Progression on the course is dependent upon passing the Transfer of Status assessment.

Following successful completion of the transfer assessment then candidates will progress and are able to submit their thesis prior to examination by viva.

Changes to this course

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after you commence your course. These might include significant changes made necessary by any pandemic, epidemic or local health emergency. For further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

Costs

Annual fees for entry in 2024-25

Fee status	Annual Course fees
Home	£9,500
Overseas	£31,480

Information about course fees

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>).

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or a college continuation charge.

The University continuation charge, per term for entry in 2024-25 is £628, please be aware that this will increase annually. For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable for non-matriculated courses) it is likely to be in the region of £100 to £600. Please contact your college for more details, including information about whether your college's continuation charge is applied at a different rate for part-time study.

Additional cost information

There are no compulsory elements of this course that entail additional costs beyond fees (or, after fee liability ends, continuation charges) and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for 2024-25 are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

Likely living costs for one month

	Lower range	Upper range
Food	£315	£495
Accommodation	£745	£925
Personal items	£190	£320
Social activities	£40	£95
Study costs	£35	£85
Other	£20	£35
Total	£1,345	£1,955

Likely living costs for nine months

	Lower range	Upper range
Food	£2,835	£4,445
Accommodation	£6,705	£8,325
Personal items	£1,710	£2,880
Social activities	£360	£855
Study costs	£315	£765
Other	£180	£315
Total	£12,105	£17,595

Likely living costs for twelve months

	Lower range	Upper range
Food	£3,780	£5,940
Accommodation	£8,940	£11,100
Personal items	£2,280	£3,840
Social activities	£480	£1,140
Study costs	£420	£1,020
Other	£240	£420
Total	£16,140	£23,460

When planning your finances for any future years of study at Oxford beyond 2024-25, it is suggested that you allow for potential increases in living expenses of 5% or more each year – although this rate may vary depending on the national economic situation.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.

Document accessibility

If you require an accessible version of this document please contact Graduate Admissions and Recruitment by email (graduate.admissions@admin.ox.ac.uk) or via the online form (<http://www.graduate.ox.ac.uk/ask>).
