

Course Information Sheet for entry in 2017-18

MSc in Education (Higher Education)

About the course

The MSc Education (Higher Education) at the University of Oxford provides a broad introduction into the complex field of theories and practice in higher education globally.

The increasing significance of university rankings and the growing range of international student exchange schemes, as well as public discussion of tuition fees and the 'vocationalisation' of degree programmes, are just some of the current issues within higher education in many countries.

The master's programme will provide you with the possibility to engage not only with the issues outlined, but also with a wide range of stimulating topics surrounding universities and colleges.

It is aimed at future leaders in the field – academics, policy-makers, researchers and managers.

The course is assessed through written assignments, a two-hour examination, and a research dissertation.

However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after registration.
