

PTES and PRES Survey Privacy Statement

Our privacy statement explains how we treat your personal data and protect your privacy when you complete this survey.

The PTES and PRES surveys are run by the University of Oxford on behalf of and in partnership with Advance HE and Jisc. The results will be treated confidentially. Individual user data is not monitored and the dataset will be pseudonymised for analysis. The pseudonymised survey results will be shared with Advance HE and Jisc who administer the survey in the UK - for the purpose of national reporting. In addition, a dataset of (unedited) comments will be shared by Advance HE with a third-party processor for automated text analysis, along with several analysis variables (e.g. discipline, mode of study, age, ethnic group), though this dataset will be anonymised.

Data shared with Advance HE and Jisc includes age, gender, disability and ethnicity. Your individual response will be linked to your student record so we are able to pull additional demographic information. However, the data will be anonymised when results are reviewed and it will not be shared internally or externally.

All data will be retained in line with the [student privacy policy](#), and all respondents have a right to withdraw their response at any time (Article 17 GDPR). If you have any questions about the survey or wish to withdraw a response, please contact surveys@admin.ox.ac.uk.
